

The Beef Farmers of Ontario are pleased to partner with Mapleseed and the Ontario Forage Council in sponsoring the "MAPLESEED Pasture Award 2022." This is an excellent opportunity to recognize individual producers who are doing an outstanding job of pasture management. The Mapleseed Pasture Award is also a way of encouraging producers to implement pasture management strategies that maximize production per acre.

Mapleseed contributes a cash award of \$250 to the winner plus a 25kg bag of their choice of a Mapleseed Forage Mix. The winner will be announced at the BFO AGM which will take place in February 2022

Application Deadline: November 30, 2021

Send completed applications c/o Ontario Forage Council, Box 463, Markdale, ON, NOC 1H0

Name of Nominating Group or individual (if applicable). Farm Name: _____ Name: ______ Phone #: _____ Address: County: _____ Township: ____ Lot: ____ Concession: _____ Soil Livestock Type: ______ Number of Head: _____ Calving date(s) if applicable: Pasture Acres Owned: Rented: Pasture Classification: **TYPE** # ACRES Improved tillable Unimproved tillable Improved Roughland Unimproved Roughland Management of Regular Pasture (land used just for pasture): # _____ acres ☐ Strip Grazed: - How often moved? # _____ acres ☐ Rotationally Grazed: - # of fields/paddocks? ☐ Continuous Grazed: # _____ acres (access to same pasture all season) # acres ☐ Unimproved Pasture: ** Please Use Separate Paper to Answer Questions 1-8 ** 1. How is pasture utilized in your operation? 2. Describe your pasture management program (species, overseeding, re-seeding, fertilizing, grazing management, watering facilities, recording system, etc.) How does this management work towards a philosophy of "best use" of available resources?

3. How do you capitalize on strengths and minimize weaknesses of your pasture?

4.	What are the unique features of your pasture system (riparian areas, rough terrain)? How are these features an advantage for you (or how do you turn them to your advantage?)
5.	How long is your pasture season? How do you extend your spring and fall seasons?
6.	List your five top Pasture Management Practices to best utilize your resources.
7.	If you could change one thing about your operation, what would it be?
8.	What research would you like to see done in pasture management?
at	inderstand that I may be contacted by the media, asked to host farm tours or to speak about pasture management my convenience as a result of this competition. Pictures and/or production information submitted with the plication may be used for news articles and extension purposes.
Si	gnature of Applicant:

ANIMAL UNITS PER ACRE

Complete the following tables and formula to determine the animal units per acre.

TABLE I - TOTAL ANIMAL UNITS

Record the number of each type of livestock under "Number Pastured." Multiply by Animal Unit Equivalent Number to get number of animal units in terms of 1,000 pound cattle. One (1.00) animal unit is equivalent to 1,000 pounds of live weight. This figure may be adjusted up or down for the various breeds by adding or subtracting .10 animal units for every 100 pounds over or under 1,000 pounds live weight. For example: a 1,400 pound Charolais cow = 1.40 animal units while a 900 pound cow = .90 animal units.

Type of Livestock	October 1st, 2020 to October 1st, 2021								
Carried	Number	Animal Unit	Animal						
	Pastured	Equivalent	Units						
Cows and heifers bred and/or with calf at side		1.00							
Other cattle 1 - 2 year		.75							
Other cattle under 1 year		.50							

TABLE II - TOTAL ACRES PASTURED

Record the acres of each type of pasture used from October 1^{st} , 2020 to October 1^{st} , 2021.

		Number of	Number of	Number of
Тур	es of Pasture Used	Acres	Days	animal units
Reg	ular pasture (field used only for pasture in that year)			
1.	Continuous grazing (access all year)			
2.	Rotational grazing (# paddocks)			
3.	Strip grazing			
Hay 1. 2.	and silage aftermath, pasturing after 1st cut hay crop If all aftermath following June cut is pastured If 2nd cut hay removed and 3rd cutting pastured			
Anr	nual/Supplementary pasture Sudan grass, rape, and kale			
2.	Oats or rye pasture, - seeded for fall pasture - seeded for summer and fall pasture			
	companion crop and new seedings pastured in the year of ling			
Rou	ghland pasture			
Cro	p Residue, i.e. cornstalks			
	TOTALS			

TABLE III - ANIMAL UNITS PER ACRE

Complete the following formula and enter the animal units per acre.

Ani	imal Units x Days ÷ A	cres = Animal Unit Days per year										
Total Animal Units	(divided by) Total Ac	res Pastured = Animal units per acre										
Were animals from more than one species grazed on the same pasture? Yes No												
If yes, please specif	fy: Type	Number of Head										
	COST OF PAS	TURE PRODUCTION										
Pasture	Input Costs for Mainte	enance, Establishment or Renovation										
* Use actual amount paid i.e. Harrowing: \$7.00 per a Show costs for 2021	•	erator or use 2016 Custom Rates to calculate cost if done by applicant: per acre										
Pasture costs:												
Establishment: Tillage Planting Seed Fertilizer Spray	Acres	Dollars										
Fencing: Perimeter Internal Repairs												
Fertilizer Spraying Clipping Over Seeding												

PASTURE RENTAL RATES:

If you rent pasture, please specify rental rates paid over the past three years. Indicate per head, per lb gain, per acre or per season.

Livestock Production Information

A. LIVESTOCK PRODUCTION

Please indicate number and type of animals grazed and typical production levels, i.e. weaning weights, stocker/grower/finisher gains, etc.

B. LIVESTOCK HEALTH COSTS ON PASTURE

Please comment on Fly Control, Vaccinations, Parasite Control, Implants, Disease Treatments i.e. pinkeye, footrot.

2021 FARM SKETCH

Use this page to sketch an overview of your farm(s).

Include location of:buildings, laneways, field boundaries (pasture field crops and approximate acreage), wetlands, woodlots, ponds, creeks, water access points, mineral/salt feeders on pasture, etc.
