## **Calendar of Activity**

	Miscanthus				
	Year	Period	Activity		
P R E - P L A N T	-1	Jan- Jun	<ul> <li>Consider site selection, yield estimates, ability to take large amount of biomass off the site</li> <li>Prepare market for biomass</li> </ul>		
		Aug- Nov	<ul> <li>Familiarize yourself with the management of a perennial grass by reviewing literature, contact the <u>Ontario Biomass Producers Co-operative</u></li> <li>Possible field preparation on poor sites, may include tillage and herbicide applications for controlling winter annual and perennial weeds</li> <li>Soil testing for P, K, pH</li> </ul>		
E S T A B L I S	1	Mar- Apr	<ul> <li>Apply herbicide to control early-season weeds</li> <li>Spring tillage</li> <li>Harrow soil immediately prior to planting to free moisture</li> <li>Rhizome planting</li> </ul>		
		Apr- May	<ul> <li>Apply herbicide application while crop height is below 1m</li> </ul>		
H	2	Feb- Mar	- First year growth not usually harvested		
C R O		Apr- Mar	<ul> <li>Apply nutrients if required</li> <li>Herbicide application while crop height is below 1m</li> </ul>		
P P I	3+	Feb- Mar	<ul> <li>Harvest previous years growth as appropriate</li> <li>Bale and stack product</li> </ul>		
' N G		Apr- May	<ul> <li>Monitor crop nutrient and apply nutrients if required</li> </ul>		

Switchgrass					
	Year	Period	Activity		
P R E - P L A N T	-1	Jan- Jun	<ul> <li>Consider site selection, yield estimates, ability to take large amount of biomass off the site</li> <li>Prepare market for biomass</li> </ul>		
		Aug- Nov	<ul> <li>Familiarize yourself with the management of a perennial grass by reviewing literature, contact the <u>Ontario Biomass Producers Co-operative</u></li> <li>Possible field preparation on poor sites, may include tillage and herbicide applications for controlling winter annual and perennial weeds</li> <li>Soil testing for P, K, pH</li> </ul>		
E S T	1	May- Jun	- Seed switchgrass May 15 - June 15		
A B L		Jul	- Broadleaf herbicide application, if needed		
I S H	2	May- Jun	<ul> <li>Apply nitrogen fertilizer</li> <li>Monitor crop and apply other nutrients if needed</li> </ul>		
	e L	Jun- Jul	- Broadleaf herbicide application, if needed		
C R O P P I N G		Oct- Dec	<ul> <li>Mow and windrow switchgrass</li> <li>(late Oct / early Nov)</li> </ul>		
	3+	Oct- Dec	<ul> <li>Mow and windrow switchgrass</li> <li>(late Oct / early Nov)</li> </ul>		
		Apr- May	<ul> <li>Harvest previous years growth as appropriate</li> <li>Rake, bale and stack product</li> <li>Apply nitrogen</li> <li>Monitor crop and apply other nutrients if needed</li> </ul>
