

FORAGE FOCUS

Hay As A Cash Crop

FRIDAY, DECEMBER 6, 2024

*Held in conjunction with the
CFGA Annual Conference in Guelph*

AGENDA - STARTING AT 9:30AM

Stop 1: Marcrest Hay Storage in Gorrie

Visit the hay dryers and check out an innovative hay storage facility.

Stop 2: Marcrest Manufacturing

Get to tour where the Bale Baron is manufactured. The Bale Baron is a machine that bundles small square bales and virtually eliminates the need to manually handle bales.

Lunch will be provided here, courtesy of Marcrest Manufacturing.

Stop 3: Marhaven in Drayton

Here you'll get to see the Chinook hay dryers and the hay press. There will be a panel discussion (speakers to be announced) about the opportunities that are present for hay producers, and what your potential buyers may be looking for. Come prepared with your questions!
A tradeshow will also be held at this location.

Forage Focus is a day-long tour with stops at hay production hubs, where you'll learn more about the markets available to Ontario hay producers.
